TO : Deputy Director (Administration)  
THRU : Chief, Classification and Wage Division  
FROM : Assistant Director for Communications

DATE: DEC 18 1953

SUBJECT: Survey of Positions in Office of Communications Signal Center

25X1A9A

1. I concur in the findings contained in the study prepared by Mr. [ ] of certain positions in the Signal Center except that I request that the title Communications Technician (Crypt) be retained for all appropriate positions in the Office of Communications.

2. I realize that the retention of this title may not strictly adhere to classification principles but I feel that its use over the past years has created a practice that would be practically impossible to overcome. Also, it is my opinion that the two titles, Communications Technician (Radio) and Communications Technician (Crypt), are ideally explanatory as to the functions performed by the personnel carrying these titles.

3. I request, therefore, that the attached study be approved as presented but utilizing the title Communications Technician (Crypt) whenever appropriate.
